STRUCTURE

LISS KOMPLEX
Hair smoothing
system

Perfect smooth protocol

Step 1

Wash hair

Apply shampoo to damp hair, massage and leaving on for 5 – 10 minutes, depending on the thickness of the hair. Rinse and towel dry.

Step 2

Apply smoothing cream

Divide the hair into 4 parts. Spread the cream, strand by strand with a thickness of approximately 0,5 cm. Comb through.

Step 3

Process

Allow the following processing time, depending on the thickness of the hair:

<i>Natural hair</i>	30 – 40 minutes
<i>Coloured hair</i>	25 – 30 minutes
<i>Highlighted hair</i>	10 – 20 minutes

Step 4

Rinse

Partially remove with water.

Perfect smooth protocol

Step 5

Dry & Iron

Dry with a hairdryer at medium heat then use the straightener 6-9 times per lock.

<i>Natural hair</i>	230°
<i>Coloured hair</i>	200° - 220°
<i>Highlighted hair</i>	180° - 200°

Step 6

Finish

Rinse thoroughly. Towel-dry. Apply the restoring mask. Leave on for 5 minutes, then rinse and style.

The service could slightly lighten the color so it is recommended to use an anti-yellow mask.

Anti-frizz protocol

For an anti-frizz effect, without totally straightening the hair, reduce to processing time to 10 – 15 minutes.

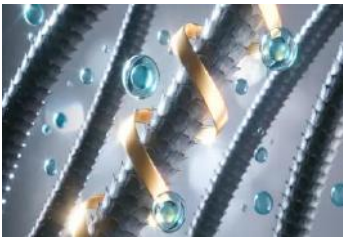

Allow to process under a heat source.

Do NOT iron the hair.

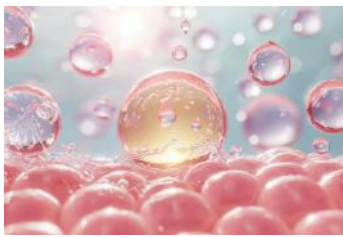

Active Ingredients

Active ingredients selected to create the formula, guarantee maximum respect for the hair with a long-lasting natural result.

KERATIN

A fibrous protein that allows the sealing of split ends and gives volume and light to the hair.

COLLAGEN

A fundamental protein for the elasticity and hydration of the hair. It makes them strong, shiny and healthy.

HYALURONIC ACID

A polysaccharide that retains water and maintains correct hydration, ensuring an anti-frizzy effect.

SILK HYDROLYSATE

Silk proteins guarantee protection and shine to the hair with a smoothing effect.
